These Heifers were a pleasure to handle right throughout the drafting and weighing process. Each Heifer stood still on the scales in the crush and waited contently then walked on when asked to move. Not docile as they moved off when asked without hurrying at anytime.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A Tidy line of Quiet, well-handled, rising 2 to 2.6 year old, Senepol & Senepol/Angus heifers, medium to large frame, PTIC 2.5 - 4.5 months to LBW Senepol Planchonella Hills bulls (single muscle gene). These heifers are presenting in fresh forward store to forward prime condition with 22 red tags & 8 blue tags. The Standfield family have been breeding Senepol cattle for the past 7 years which are having great success with calving ease as well as cattle performing exceptionally well on there western mulga country. Heifers have a nice shiny skin displaying great weight & growth for their age. OPPORTUNITY NOT TO BE MISSED as these heifers tick all the boxes and would enhance any crossbred commercial breeding program for many years to come given the correct nutrition. "Young females are the future of the cattle industry".
