	They handled very well through a good set of pro way yards. Just a few heifers were rushing into the crush but settled once returned to the others.		
Handled With	Bikes , Vehicles		
Assessor Comments	Quality line of PTIC heifers, joined to LBW Irelands Angus Bulls, These heifers are pure Rennylea blood, originally purchased as vendor bred heifers from a renowned breeder in the North East. They are soft bodied, stylish heifers that will continue to bloom into a quality line of breeders. They have the genetics and the backing for a head start into a breeding program or would make the ideal change-over article. Please note: 6 were noted to have old pink eye scarring not deemed detrimental to vision, 8 heifers have white near udder, and 4 heifers have warts, one heifer with more is pictured last in the assessment media.
