| Assessor Comments      | A line of 28 Angus Heifers sired by Hazeldean Angus Bulls, at assessment the Heifers weighed 363-459kg to average 400kg after an overnight curfew and present in a strong store condition. The Heifers were running with an Angus Bull from the start of October to the End of November during a dry spell in the weather and did not go into calf (possible Bull issue). They have all been Preg Tested Empty on the 20th February - Certificate is attached. The Heifers were very quiet to handle throughout the assessment with the Vendor priding himself on the temperament of his cattle. |                |                                     |
