Assessor Comments	Quality and Genetics you can control but the the weather you cant. These Heifers were purchased as a 1 mark vendor bred line of Quality Weaners as replacements for an F1 breeding programme. The recent change in seasonal conditions has reluctantly bought these Heifers on to the market. These Heifers are well grown and are all frame. Pregnancy tested in calf to Sunnyside and Circle 8 Wagyu Sires. To commence calving in June. Well handled quiet cattle. All Bull IDs are attached in the links directing you straight to the Australian Wagyu Animal search.
