Assessor Comments	On offer on account of "Rich Avon Pastoral", a quality line of 65 Angus PTIC Cows. Cows are 4-4.5 years of age, currently in calf to their 3rd calf and average 514KG. Cows were purchased as weaner heifers out of Southern VIC weaner sales, they are Franc's Angus blood, exhibit an outstanding large frame, big roomy Cows that would be huge cows when in prime condition, presenting in a strong store condition given the season and just having 250kg weaners pulled off them. Wrigley Cattle Co Angus Bull's went in on the 27/10/25 for 12 weeks, coming out on the 20/10/26, preg tested from 2.5-4 months in calf to a high-performance Angus Bull. Cows have performed very well for the vendor, achieving nearly perfect scanning and calving results each year, unfortunate, regretful sale due to tough season. Buyers a magnificent opportunity to secure a classy line of high-performance breeders in the prime of their lives that would be an asset to any herd.
