Assessor Comments	Vivik Pty Ltd of 'Fernlea' in Caveat are unfortunately dispersing all of their Spring calving Cows & Calves due to the severe impact of the recent Longwood bushfires. Purchased from the Euroa 'Feature Female' sale as NSM Heifers for their docility, confirmation & all round quality. These animals have been the building blocks to their herd over the recent years with many heifer calves being retained for in herd use. Thankfully where these Cows & Calves were positioned they were not directly impacted by the fires & post inspection there are no concerns regarding animal health and/or structural damage. If believe if you are looking for an addition to an existing herd, starting a new one or even potential trading opportunity these animals tick all of the boxes. It is extremely important to the vendor that the successful purchaser adheres to the delivery times stated as there is no natural feed available & only being fed donated fodder.
