Assessor Comments

On offer are 23 PTIC Angus Heifers. Heifers are Aug/Sept 24' drop and were purchased as weaners in April 25' Ex Yea Store sale, originally being bred by Bingara, Ruffy. Joined to a Riddlevue Angus Bull from the 18/10/25 to 9/12/25, these heifers are due to calve end of July for 8 weeks. They were drenched in September with Cydectin pour on. At assessment they weighed 470Kg Empty and present in forward store condition. Vendor has done an incredible job in getting these heifers so quiet and would be a fantastic addition to any existing Spring-calving operation, otherwise would suit the beginning of an impeccable breeding herd. Please note 1 heifer has a scarred right eye from previous pink eye, see photos.
