| Assessor Comments                     | A line of Brangus Cows PTIC 4-6 months to a Broadwater Angus Bull. At assessment the cows weighed from 352-534kg to average 432 kg after an overnight wet curfew and present in a store condition. At the time of the assessment the cows still had 250kg + weaners on them and were doing a great job on the calves. They will be removed before delivery and the cows will respond quickly. The cows were bought as weaners in 2020/2021 and are Preg tested in calf to their 3rd calf - only being sold due to the dry conditions. Please note only 1 day delivery on these cows. |                 |      |                 |                                     |              |  |      |      |       |      |   |      |
