Assessor Comments: Not often you get to stand over a line of very even well bred Angus heifers of this size, A great opportunity presents its self to Secure one lot of 41 or three lots totaling 134 that are one mark vendor bred heifers out of the quality breeding grounds of the New England. The stony station herd is a foundation of Stud Hazeldean cows. These heifers were sired by AI sons of the the leading Angus sires in Murry El Grando G20, Chilton Park Moe, Rennylea G420 and Aryvale Bartel. Heifers are soft easy doing types that will grow into great future breeders. A great commercial article on offer that will be priced to sell, only due to being surplus to needs as an annual sell off. Due to calve from late July onwards for approx 7 weeks to home bred AI sons of Gar Prophet and Moogenilla Quinella, that are picked on LBW attributes. Heifers will be sold as a run out the gate. Quality Future breeders not to be missed.
