Assessor Comments	A nice line of EU angus heifers that the vendor had selectively joined to top quality Booroomooka Angus bulls (BW attached in joining details) Vendor has purchased quality Angus bulls from reputable Angus studs including Booroomooka, Booragul & Te Mania in a self-replacing herd. Heifers are preg tested for a 9 week Calving with a large portion only joined for six week window . Heifers present in ideal condition to calve down in the coming months as they are not carrying a large amount of condition. Generally all heifers are true to type for the breed and given the right opportunity should grow into very nice females in time. Four heifers with a white face would be 7/8 Angus, one heifer old pink eye spot in one eye
