Temperament	Quality Grades		Store Condition	
	Very Good	76%	Fwd Store	20%
	Good	24%	Store	80%
	Yards		Crush	Paddock
Handled With	Quiet: 49 head		Quiet: 47 head	Temperament not assessed in
			Slightly Stirry: 2 head	Paddock
	Generally very good to handle in and through the yards. Two cows were mildly agitated in the crush. They simply would not fully settle and exited quickly. All settled quickly when back in the mob and were good to move and manage when taking photos and videos.			
Notable Traits	Traits 2 Head Slight navel indicating possible Bos Indicus 1 Head Udder showing signs of bottle teats			
Assessor Comments	A very good quality line of vendor bred EU accredited PTIC Cows. These cows were assessed as 10% medium, 86% large and 4% very large frame. They range from rising 5 years to rising 7 years. They are vet preg tested in calf to registered Bowen and Booroomooka bulls with 49 cows in a tight calving window. One cow noted with slightly enlarged teats. This is a genuine reduction of prime breeding females. They are very good quality EU and Grasslands accredited cows which have plenty of breeding life ahead of them.
