Assessor Comments	A good line of Angus cows in the prime of their life, PTIC to Booroomooka and Glenavon bulls. The majority of the cows are vendor bred, with a portion originally purchased from Victoria. The Sides family have been purchasing Glenavon and Booroomooka bulls for years, selecting for growth, fertility, and IMF, and these cows reflect that breeding direction. They have just had big, strong weaners pulled off them and remain in good working condition. The vendor is very reluctant to sell but is short on water and feed. One cow has old pink eye scarring in one eye, but it does not affect her eyesight or performance in any way.
