Assessor Comments	Offering a good line of large frame older cows in good store condition. PTIC to Angus bulls most of these cows are 6-8 months in calf, with 3 head approx 3-4 months in calf and 1 PTE. Vendor planned to calf down again, but seasonal conditions have made the call to sell before they start dropping presenting a great opportunity for purchaser to pick up and have calves on the ground quickly. Please note majority sound 8 tooth, with 1 head worn and 2 head broken teeth.
