Assessor Comments	510 Hazeldean blood Merino wether lambs, please note these are the lead of 1500 wether lambs on 'Benangaroo'. The lambs were born and bred on 'Wyvern Station' then trucked to 'Benangaroo' at weaning in early September 2025. These sheep annually perform very well in the Merino Wether Challenge trial run by Craig Wilson. At Wyvern we utilise the new WP index, all rams used are in the top 20% of this breeding index, and we breed for long term fleece value. Their older sisters, the 24' ewes have just been shorn, and early test results indicate micron of 14.5. These wether lambs are ideal for immediate feedlot entry.
