Assessor Comments	The 2nd draft of the Emuvale Pastoral Primeline Ewe lambs. All lambs were individually weighed out at from 40 to 49kg, with the vendor not retaining any ewe lambs due to a change in direction on farm. These sheep have had all their animal health treatments and the vendor's Sire Team rates in the top 10% of the Primeline breed. This presents an excellent and rare opportunity to purchase sheep that produce an abundance of lambs, that not only show traits such as excellent weight gain but have also yielded very well when sent to processors in the past. The vendor also has the sisters of these sheep in the sale 270 head weighed from 50kg and above ave 52.7kg in this sale. A chance to put a line of 605 breeders together and improve your flock genetics overnight. **Some ewes coughing due to dust in the yards and dust around barley feeder, Odd ewe showing some dag will be crutched before delivery, buyers please note the delivery timeframe of 3 days lift**
