Assessor Comments	A small line of 91 shorn ms XB lms.. Lambs averaged 32.2kgs., weight range 28-35kgs at assessment. They are weaned, well bred, moving ahead and ready to bound away with the right feeding regime. Lambs bred from top quality STOKES BAY GENETICS BLD & GLENCORRIE BLD PD sires & Ella MATTA BLD WS sires, over medium-large frame composite & mo ewes. The ewe lms in the line would make fantastic future breeders, they normally would be retained as breeding ewes but vendor is selling due to change in direction. All lms have been weighed through an auto drafter. This vendor has a heavier line of 297 lms in this same sale.
