Assessor Comments	Blyths blood wether lambs. These wether lambs are well breed and would do well being retained and aimed at the winter markets. The lambs were all put through the auto drafter with any lamb under 24 taken out, there were 60% over 30 kg with the balance 24/ 30 kg These lambs are not carrying any fat cover and are all frame. There is a percentage of these lambs that are taking time to adjust to being locked up and they are ideal to be put in the paddock the grow out. Please call for any further information.
