Assessor Comments	A very good group of 410 x August/ September 2025 Drop Feeder Lambs. Lambs individually weighed between 30 - 47kg full. The lambs are unshorn and are in good health, this group represents the lead draft of lambs bred out of maiden ewes. The lambs are currently grazing pasture and have access to Barley in self feeders. An opportunity to purchase lambs that are in store to forward of store condition. The lambs are by Lambpro 'Tradie' sires, they will perform well if given access to high protein feed. The lambs will offer plenty of value to buyers, fantastic lambs to finish for the lucrative autumn and winter markets. Note: AMI Agriop will offer another two groups of shorn lambs in today's sale
