Assessor Comments	Lead draft of vendors White Suffolk/Merino X lambs that would normally be retained and fattened and are not far off there now. Will not take a lot to finish these off to heavy trade or export weights. Please note that they are principally Wether lambs as they have retained the lead of ewe lambs as future breeders and there is a small percentage of Composite lambs in the draft. November shorn and ready to hit the feeders or irrigated country and start gaining weight.
