Assessor Comments	Offering a neat line of future breeder ewe lambs pure Chrome blood 15+ years of breeding. 36-62 kg av 47.3kg @ assessment. Vendor carefully selects the sires from chrome sheep studs with a big emphasis on all maternal traits, with black nose/feet and fertility, worn tolerance and growth which shows in these lambs. These ewe lambs were shorn on the 18/12 and are in fresh forward condition and have plenty of weight to successfully in Feb/march to ram of choice. These future breeders are bred out of a flock that annually joins and rears a good percentage of lambs and turns off good, weighted lambs for the trade as suckers. These lambs have a big bill of health and biosecurity is at a high standard these ewe lambs will be a great asset to any self-replacing or prime lamb enterprise.
