Assessor Comments	Nice line of 33 Aussie White Ewe lambs averaging 48kg at assessment. These ewe lambs are most recently based on Allaye bloodlines, with Remah blood stock also used in the past. They have enjoyed a nice end to spring and are in great condition and with a healthy weight of 48kg, should join up nicely in a couple of months if chosen to. Lambs are displaying true characteristics of the breed with a good percentage shedding nicely and will continue to do so. This is an entire offering of the vendors ewe lambs with a small tail removed.
