Assessor Comments	A quality line of August/September 2025-drop first cross mixed-sex lambs presenting in store to forward store condition. Sired by Kentish Downs Poll Dorset rams and out of medium to large-frame Hazeldean Merino ewes, these lambs carry excellent frame and structure. Trained onto grain prior to weaning, these lambs are well prepared and will transition readily onto a feeding programme. Assessed at full weight, lambs ranged from 30–52kg, averaging 37.2kg following the removal of a 10% tail. With the genetics and frame on display, these lambs represent an excellent opportunity for purchasers looking to place stock on feed and target late autumn to early winter markets. Please call for further information.
