JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			
Vendor Comments	14 years of Anderson bloodline puts this drop of lambs in the top 20% for PWT, top 30% for EMD and just outside the top 10% for YFAT on the latest merino select percentile chart.			
Assessor Comments	A neat line of 300 Merino Wether Lambs. Weighed 38-60kg to average 43.4kg at delivery. June/July drop 2025 with all lambs weaned on the 10/10/25, having a 3- Way Combitak/Abatak drench and Glanvac 6 in 1. Approx 5% of the mob have horns. All animals have been tail-stripped (given pain relief) and a small percentage have been lightly mulesed. Bred out of vendors self-replacing merino flock carrying Anderson Merino genetics. Vendor has placed strong emphasis on breeding selection focusing on fleece weight and worm resistance. This has meant the mature ewe flock hasn't been drenched for almost 2 years. The main breeding flock is on average cutting 18 micron wool. A fantastic run of lambs that have been freshly shorn and grain-trained. Please note vendor has 1 other lot in sale.			
Assessor	Brooke Green (Level 1 Accredited)			
Delivery Period	03/03/2026 to 10/03/2026 (8 days)
