Assessor Comments	480 Merino wth lambs. All weighed 35kg to 41kg to av 37.5kg full. Dropped at the end of July and August 25, weaned in late Oct and Shorn in Feb. They have been grazing a summer crop which has barley in it. There are plenty of barley heads on the ground which they have been eating. The flock is now using 100% Anderson genetics, resulting in bigger plainer bodies with greater carcass weights each year. All lambs were finished last year between 22-24kg carcass, this is a run of mid weight lambs to take advantage of the store prices. High Quality lambs that will perform.
