JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 5 years
Assessor Comments	A quality line of Merino wether lambs showcasing strong Rockbank South genetics, bred with a clear focus on growth and plain-bodied, productive sheep. These lambs display good frame, length and overall development, presenting in forward store condition and tracking well. Out of a flock where mature sheep consistently cut around 7kg, combining wool cut with carcase performance. With a little more time on feed, these lambs should push on quickly to meet export market specifications.
