20 Head	Light horn						
Assessor Comments	Forward store conditioned Merino Wether lambs that have a good rebate on their backs. September/October 2025 drop lambs that after a near 18hr curfew still averaged at a good feeder/back grounder weight. These lambs are out of large, framed ewes that cut a power of wool. Please note there is one ram with larger horns who was marked late in the mob. Please also note these lambs have not been mulesed and tail stripped, they received pain relief and have their tales docked.
