Assessor Comments	Restockers - here is a great opportunity to purchase a very good quality run of Ewe lambs. These September/October 25 drop are a part of full drop of ewe lambs being offered, 2980 in total. They are being offered in an 8 & 6 deck lot, run out the gate as even as possible. Lambs have a had a great start with good rainfall early in the season with no set back at weaning. 5% of the tail was removed at assessment. The Brumich flock are well known for their breeding: bloodlines consist of Etiwanda, Bellevue and Boondarra white dorpers, with a strong and consistent emphasis on fertility. Ewes are unjoined - would be ideal to put with rams of your choosing or could easily be taken through to heavier weights for a kill job. Not often a full drop of Brumich ewe lambs come on offer. Don't miss this opportunity.
