Assessor Comments	Here presents a line of NSM Ewe Lambs. These Ewes were bred out of some purchased Primeline SIL Ewes and sired by High Indexing Lambro Primeline Rams. Ewes present in forward store condition. Vendor made sure he only purchased Primeline Ewes out of recommended Lambpro flocks to ensure he was breeding the best progeny he could. These are tops of the drop with a tail removed at assessment and no Ewes retained. These Ewes would complement any Primeline flock and are ideal to background and join to the Ram of your choice. These Ewes are only being offered due to seasonal conditions. Buyers please note there is a very small percentage ewes that are July/August 2025 drop that have only be shorn two weeks ago. They are the heavier ewes, please see attached photos. Buyers, please also note vendor has three lots in sale to be delivered as a run out of the gate, we will try to deliver as even as possible.
