| Assessor Comments        | 250 store wether lambs averaging 33kg. These lambs are healthy and present a brilliant starting block for entry into a paddock before growing into good feeder lambs. The mothers of these lambs average 6kg of wool @18.4 micron each year. lambs have had a full 20hr curfew before weights and photos. great article to take home, shear, and grow into export wethers. |            |          |
