Assessor Comments	A light 2 decks of xb feeder lambs. Weighed 30-47kg at assessment to average 37.3kg after a delivery adjustment. These lambs were purchased through the spring of 2025 and from a sample mouthed all have ample time in their teeth for a winter trade. These lambs were split off heavier lambs one week ago and have improved out of sight being on their own with less competition and more feeder space. They have access to barley ad lib in self feeders and given the seasonal conditions they are consuming it as there isn't much else on offer. They are being offered for sale due to paddocks being limited with the annual cropping program approaching. They present even type with a neat skin. A small tail was removed at assembly. Note vendors property is 15kms from the Wagga saleyards for trucking convenience if required.
