Vendor Comments	Summer crop has finished and annual sale of lambs			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Here presents an even line of composite feeder lambs that have all been weighed from 37-47 kgs through the scales. Small tail of the lambs removed. Lambs have been continually doing the whole way through this season at the property with some remarkable results on kill lambs achieving over 50% yields at the abattoirs. Simply summer crop has ran out and therefore lambs have reached there end date. Please note there is a small number of ex stud ram lambs that have been late marked 6 weeks ago in the consignment, these ram lambs have never had access to ewe lambs in their mob prior to marking.
