Assessor Comments	246 Medium framed, shorn merino ewe lambs that have been Gudair vacc at 1m marking, backlined with Avenge at shearind. These lambs are fit and healthy and would suit a dedicated woolgrower to take on and use as breeders. The Mt Rebecca adult flock is in the 17 - 18.5 mic range and capable of cutting large quantities of freegrowing soft stylish wool. With their good genetics and the current strong wool and lamb market these lambs would suit longterm woolgrowing and breeding or shorter term fattening for the meat market. Small % with a few dry dags. NB 234 brothers in sale.
