Assessor Comments	234 Medium framed, shorn merino wether lambs that have been Gudair vacc at 1m marking, backlined with Avenge at shearind. These lambs are fit and healthy and would suit a dedicated woolgrower. The Mt Rebecca adult flock is in the 17 - 18.5 mic range and capable of cutting large quantities of freegrowing soft stylish wool. With their good genetics and the current strong wool and lamb market these lambs would suit longterm woolgrowing or shorter term fattening for the meat market. Small % with a few dry dags, approx 15% with horn. NB 246 sisters in sale.
