Assessor Comments	An outstanding quality line of 111 station mated stud ewes. These ewes have been selected for the best breed traits, all being in the top 40% for ASBV's & joined to registered stud rams which are all in the top 5% for ASBV's. With approximately 60% of the mob being 2.5 yr old ewes this is a rare opportunity to secure top quality ewes with plenty of years ahead of them. These ewes have been producing high quality commercial lambs and have been going forward since lambs were weaned, a testament to years of breeding focused on easy doing and productive sheep. Fabstock Super Cycle was available to the ewes leading up to joining and rams were put in at 4-5%. These are only being sold as they are surplus to stud requirement.
