Assessor Comments	Dispersal on account of GFA F1, their flock of Cashmore Park-based genetic ewes. Cashmore Park has been used in the program for the last 11 years, and the ewes have produced finished lambs in all years. Sired by a maternal sire from Cashmore Park, out of maternal Cashmore Park ewes. All lambs this year have already been sold at Supermarket carcase weights. Ewes consistently wean lambs in the top 20% of composite ewes as per benchmarking data. Lambs weaned are consistently 130% plus. Buyers, this is an opportunity to put together some high-performing ewe lambs for future breeders. Please note the other lots in the sale.
