Assessor Comments	A quality line of non station mated merino ewes, A/C Boomey Park Molong. Ewes present in store condition with plenty of growing still to do. The Boomey Park ewes typically grow out to 75kg-80kg while still maintaining 19.8 micron. Only the best get to breed on at Boomey, with fertility a focus point with the dry ewes being sold annually & the flock being classed by respected classer Michael Elms. This is a great opportunity to purchase proven breeders that have high quality fine wool without sacrificing frame. Emphasis is focused on wool cut & fertility. Small percentage of ewes have light scur. This is a great opportunity to purchase ewes from one of the districts best flocks that are only lighter in condition due to the failed spring at Molong. Total of 880 to be offered as 2 lots of 440 as a run out the gate. Highly Recommended.
