Assessor Comments	A great line of Young ewe lambs, these lambs show good growth for age and are starting to mature well with a dry start to life. This flock show great maternal traits and have always weaned from 130-150% lambs. All husbandry up to date. Sired by Kegra Super Borders out of large framed merino ewes. Ewes that will perform and are trained to the grain to get them up to weight. Animal husbandry is paramount at flagstaff with Egg counts monitored and drench rotation used to control resistance. Vendor usually joins ewe lambs in March. NOTE 1.5 year old sisters in same sale. Only being sold as property has been leased.
