Ewes are joined every 8 months at Broadwater and have all scanned in lamb every time. Progeny from this line of ewes have been well received with wether lambs selling very well as heavy export lambs and ewe lambs contributing well either in breeding or as surplus ewe lambs to other breeders. Ideal ewes to utilise for many years to come. Rare chance to buy these ewes due to seasonal conditions. Highly recommended. |                |  |           |                           |      |    |
