Assessor Comments	Very strong, healthy Karbullah blood ewes. These ewes have scanned 48% of the mob twins last year & 144% total fetuses. Always over 120% lambs marked each year. All ewes have had a lamb & any ewes scanned dry have been sold. In saying this they are a very fertile mob of ewes & would do well to have a terminal sire joined & be very profitable. All in all this is a good opportunity to buy a very sound mob of Merino ewes and breed some lambs out of. These are large frame, easy care ewes which are in generally good condition as they have had faba beans trail fed to them due to the dry conditions. Which would also make them very accommodating for rams.
