Assessor Comments	A nice line of 371 Merino station mated ewe hoggets, these ewes are October / November Drop 24, the ewes are Damondril & Winona blood. These ewes have been joined to the Damondril & Winona Merino rams for 4 weeks. These ewes are the final line of sheep from the Rosevale complete dispersal, and come from a flock average of 16.8 microns and cut 4.5 kgs of wool. A great opportunity to secure a young line of females in the prime of their lives looking for their next venture, buyers please note this line of ewes are mostly hoggets with a few showing lambs teeth still.
