Assessor Comments	*****Flock dispersal*****Outstanding opportunity to purchase classed in Kerin poll blood ewes in prime of their lives. They come from an RWS certified non mulsing flock. These ewes wean big lamb percentages and anything scanned empty is always culled. Lambs are grown out to export weights and grade very well through the grading system at GMP. Wool cuts of 6kg at19.5 mic, make very profitable dual purpose sheep . They present in store condition due to dry summer but will respond dramatically to feed. Vendor has offered to vaccinate with Gudair and spray dip with Pirana at buyers request prior to delivery. There is another 2 lots of ewes in this sale totaling 1164 ewes. Classed annually by Angus Munro.
