Preg Scanned?	Yes, this lot was pregnancy scanned, by JB Scanning (Non-Vet Contractor on 04/03/2026). 100 % Scanned in Lamb, from 1.5 to 4 months (at time of assessment 06/03/2026).		
Pregnancy Terms	No Pregnancy Terms apply.		
Other Joining Details	Rams stayed in right up to scanning so twins couldn't be detected. End of joining dates were compiled using the scanners ability to identify pregnancy		
Assessor Comments	A great opportunity to secure these stylish vendor bred & Gudair vaccinated 1st X ewes in the prime of their lives. They are scanned in lamb to selected 'Ferndale' Poll Dorset rams to commence lambing very early April. These ewes have reared excellent percentages of lambs in previous years and are only being offered due to a loss of the lease block. They were scanned too late to pick up multiple bearing ewes, but it would be assumed there would be a healthy amount of multiples in this lot. These ewes were born on the vendors lease property at Yass and are ex large frame WA blood merino ewes but have probably not grown out to their full potential in stature due to the harsh Yass winters they've had.
