Assessor Comments	A flock reduction of classed in SA Mallee bred ewes. These well bred ewes are in a strong forward order and are scanned in lamb to the WS, due from May onwards. With a touch of Dohne in the background, these ewes exhibit excellent shape and have bred some very good merino and xb lambs previously. They are plain bodied and clean pointed. With a good number scanned with multiples (identified with a blue dot), these ewes present as a great short term trade and even better flock builder!
