	Slightly Stirry: 3 head	Slightly Stirry: 2 head Stirry: 1 head	Paddock
	Steers were great to handle in the yards and were generally very quiet. Although there was some typical nervousness as you would expect from young cattle. 3 became restless when too much pressure was applied. Most were sensible on the scales, some would rock back and forth which are listed above as slightly stirry. Electric fence trained.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 1 Head small old pinkeye scarring in one eye		
Assessor Comments	A quality line of well bred Angus and Baldy steers that are responding well to the spring growth. These steers have great frame, shape and depth and have the ability to grow out into heavy weights to suit grass finished or feeder markets. Vendor has focused on sourcing sires with top carcass traits with the majority of steers being AI bred. These steers show excellent weight for age and should continue to make solid gains. Never Ever accredited, Greenham Beef Sustainability Standard, electric fence trained. * Please note vendor has 2 other lots of steers and 2 other lots of heifers in this sale.		
Assessor	Tom Loane (Level 3 Accredited)
