	Quiet: 24 head Slightly Stirry: 4 head Quiet: 23 head Slightly Stirry: 5 head Temperament not assessed in Paddock Heifers were great to handle in the yards and were generally very quiet. Although there was some typical nervousness as you would expect from young cattle. 4 became restless when too much pressure was applied. Most were sensible on the scales, some would rock back and forth which are listed above as slightly stirry. Electric fence trained.
Handled With	Bikes , On foot , Vehicles
Notable Traits	Traits 1 Head small old pink eye scarring in one eye
Assessor Comments	The 2nd draft out of a quality line of well bred Charolais/Angus heifers that are responding well to the spring growth. These heifers have great frame, shape and depth and have the ability to grow out into heavy weights to suit grass finished or feeder markets. They would also make excellent breeders. Vendor has selected for Charolais growth traits that complement the quality Angus carcass traits within the herd while also providing hybrid vigour. These heifers show excellent weight for age and should continue to make solid gains. Never Ever accredited, Greenham Beef Sustainability Standard, electric fence trained. * Please note vendor has 1 other lot of heifers and 3 other lots of steers in this sale.
