Assessor Comments	Very well bred line of 2024 drop Young maiden ewes. Ewes are currently unclassified and represent many opportunities for prospective buyers. They present evenly and have excellent genetics bred into them. Ewes have come through well after a very tough Autumn/Winter period and are really starting to flourish with the change in the season. They carry a clean bill of health and an ideal article to put away for a 2026 joining. Ewes are in strong store condition. They display soft stylish bright wools with a strong focus on wool characteristics. Ewes will be offered in two groups and at delivery will be delivered one for one via drafting gate. Please note ewes are due for a crutch.
