Assessor Comments	A VERY GOOD QUALITY LINE OF WEANED ANGUS HEIFERS. Sired by the high grade Lawson Angus Bulls out of very good quality Te Mania and Renny Lea cows, these heifers were dropped over a tight 49 day window, and are exhibiting great length and bone for their age. Since weaning these heifers have been part of a cell grazing operation, trained to 2 wire electric fencing, and moved every day. This has resulted in these weaners being very quiet to handle, well educated, and easy to move through yards. These heifers would be ideal future breeders, or to feed on to heavier weights please note 1 or 2 active eyes were treated at assessment. Any active eyes will be removed at delivery. Very well bred, and well educated cattle are hard to find. Don't miss these.
