Assessor Comments	90 x Angus Steers, 375kgs at assessment. A great example of the Angus breed, they show plenty of frame and scope, accompanied by great bone and muscle. A really even line weighed 340-400kgs, ready to go ahead on the right nutrition. Coming out of a particularly tough cold winter, they have progressed really well, but the season has started to push towards a sell. These cattle are renowned for their do-ability and come recommended. 10% tail removed at assessment. *Dunoon and Hazeldean blood* #MSA and grasslands accredited #
