	Cattle were good to handle through the yards and moved well. Cattle handled in the crush weren't too bad, however there was 2 steers that became agitated whilst in the crush. But as a mob the cattle handle very well.

Assessor Comments	An outstanding line of Angus feeder steers on behalf of the Depiazzi family. The steers present in forward store condition and would feed on really well on either grass or grain. Vendor bred and supermarket grassfed suitable. Buyers please note that there is 6 steers showing old pink eye scarring, however this is detrimental to their visibility. There has also been 5 more treated with grass seeds. The steers have been mouthed with 14 0 Teeth and 30 with 2 teeth.
