Assessor Comments	A tidy line of young, vendor bred ewe lambs to suit those transitioning to Multi Purpose Merino's or for the terminal breeder. Plain bodied, healthy lambs. The majority of these ewes are in forward store condition with the younger portion mainly in more store condition. Averaging 47.2 kg at assessment after 1 hr in yards. Ideal young ewes to put on feed and join to your ram of your choice. They would also be forward enough to fatten and turn off as lambs given they are only 9 months. Vendors have done a good job with these despite the season. These lambs have not seen a ram, having been weaned in October.
